Change of status: Your current status is indicated on the renewal form under section 1 of the online forms or on your current licence. If your current status has remained the same, please proceed with the application. For changes, follow the directions below for your specific change that you wish to address:

a) **From Practising to non-practising**: Under section 1, click on my status has changed, change your status to non-practising and continue through the application. **Please contact the office to discuss the requirements that will be needed to return to practise in the future and our three-year lapse of practice rule.**

b) **From Practising to Practising with specific designation** (local anesthesia or self-initiation): **to add specific designation** (self-initiation/local anesthesia) to their licence and to receive authorization from the NBCDH, dental hygienists **must contact the NBCDH** before completing their renewal application. Certificates of completion of the approved courses must be submitted by **email** to the College. Entering these courses onto your continuing education does not ensure that the College has been advised.

**** It would be considered illegal to practise dental hygiene without supervision or provide local anesthetic without having received the proper designation and authorization from the NBCDH. ** Having successfully completed the approved courses is only the first step to becoming self-initiated or to be able to include the use of local anesthesia in your practice. You must submit your certificate of completion by email to the College for our review and approval. You must then receive authorization from the College before proceeding.**

c) **From Non-practising to practising**: Any dental hygienist who wishes to change their status from a non-practising to a practising member must contact the NBCDH to have their status reviewed. The NBCDH **has a three-year lapse of practice** Rule that implies that any dental hygienist who has not practised in the past three years will be subject to complete a refresher program to have their knowledge and clinical skills assessed prior to transferring to a practising licence.

d) **Cancellation of membership**: According to Rules 17 (4) members must advise the College if they wish to cancel their membership to maintain their good status with the College. Failure to advise the College will encounter additional reinstatement fees if they wish to be reinstated. Please contact the office by telephone or email to cancel your membership.
